Hello,

I just love when I have great news to share! We have talked about our one big goal for 2017 being to redo our spectators area/shelter. Well, Vice President Tony and I met with club member Butch who has Lindal Cedar Homes of Livingston. With his building experience and his ideas we are working on a proposal for the club to review. Next meeting we will go over our ideas so we can approve it as a club. This will put a cherry on top of our awesome field. I, for one cannot wait. Our goal is to get the plan approved and have our new club house up and ready for use by our armed forces fun fly on May 20. This will take some help from you members for disassembly and extra hands for assembling. Oh yes, and any extra donations that we can come up with to make this happen, and please if you have not paid your dues please catch up. Again this can only come together with the club's help so please come to the next meeting and be a part of the next great improvement.

I hope you all are getting some flying in. The runway is in great shape, I still cannot believe how fortunate we are to have such a nice runway thanks to Derick and High County Paving! I was reminded again now that the snow has melted off, ready for summer!

Keep Flying, see you at the meeting maybe even at the field. Check in before meeting night,

Destry

First Security Bank Window Display (downtown, corner of Main and Bozeman)

Monday, April 3rd - Monday, April 10th. A great opportunity to display your airplanes and promote the club. Planes should be brought to the bank between 12 noon and 4pm on the 3rd and removed on the 10th between 9am and 1130am. This window display always gets a **LOT** of attention and the more airplanes we can display the better!

Please include an info sheet. Sample shown below:

Four-Star 40

MFG: SIG
 ENGINE: SAITO .56 4-Stroke
 WINGSPAN: 60"
 COMMENTS:

With a wing loading like a trainer, the Four-Star is easy to fly, yet will perform all the free-style aerobatics your thumbs can keep up with. The flight capabilities of the aircraft are limited only by your imagination. Very popular model in this club, several members fly this model.
OWNED & FLOWN BY BRIAN WESTBERG

Arizona

I’m in Arizona for a few more weeks. Keith and I went to the Scale Master's Qual meet last weekend and there is a giant scale meet in another week. I'll have lots of pictures when I get back. Meanwhile, I'm building workbenches to build on. I'll miss the next meeting (at the field, I suppose). I'll See you all when I get back.

Chuck

Club Dues!
 As we get close to our 2017 flying season, it’s a good time to make sure your club **and** AMA memberships are
