## RC FLYING CLUB

### Gallatin Eagles Upcoming Events November 2022

8, Tuesday, 7:15 PM, Meeting at the field.

For more information on club events see our website: [gallatineagles.org/calendar](http://gallatineagles.org/calendar)

### Happy Halloween!

We have still had some pretty decent flying weather for October. I have noticed Saturdays and Sundays have been Pretty busy out at the field and that is great, I am happy to see members out there using it. I hope the snow stays away for just a little longer. We should be in pretty good shape for winter the pilot fence has been pulled down i think we just need to put the BBQ in the shed. As a reminder for the clubhouse the Big roof heater works good with the remote, feel free to turn it on when you are out there this winter to warm up. It is the responsibility of whoever turns it on to make sure it gets tuned off. Our power bill this summer has been an average of \$11 it starts to creep up over the winter months but last year never went over \$80. I will reach out to the county to make sure we are covered on getting the road to the clubhouse plowed through out this winter. I don't plan on plowing the runway due to the berms on the sides tend to rip wings off and it is really hard to keep up on it throughout the winter. As far as around the benches I would love to work on keeping them dug out so we can use them this winter. if you are out there and do a little shoveling or have a snow blower that you want to bring out time to time great! Winter flying is great on skis and pontoons. I still plan on having our meetings at the clubhouse as long as we can get out there.

Our November Meeting, we will have our member of the year announced and we can hear more about the Club raffle that is going on from Ruslan, it is a pretty great deal thank you Ruslan for raising some money for the club.

A shout out to Chuck Banta, he did make a mug shot poster of the members and it is posted in the clubhouse, now you can put a name to the face. All paid members are on the poster so guess what, we are missing a few mug shots! Please remember to pay your dues as soon as possible as we really need to build up our bank account, let's get all current. We have one of the nicest flying fields and with some pretty awesome technology all this happens and supported just by paying the club dues, pretty easy. We are still working on a way to pay on line but for now cash and check works great.

continued, next page

Don't forget to get your old club and field photos rounded up so we can make a story board of how far we have come.

See you at the meeting!

Destry

**Apache Junction**

I flew to Arizona last week, Keith and I went to the Scale Masters Qual meet near Apache Junction. Lots of very fine aircraft and I got pictures of all of them. The weather was in the low 80's-really rough! Came back home on Monday.
