RC FLYING CLUB

Hello!

Wow, what an awesome month since last newsletter! The most exciting subject is our clubhouse, it is really coming together. Butch and the crew were able to get the walls and sheeting on, then I went into high gear to get the windows and the door in, then the final weather barrier wrap on. Thank you for the few that helped get it all together. My father Arnold, Father in law Brad and Bill Wheeler. Also Stan, Garret, and Les played a big part in getting the wrap on, thanks guys! At this point the clubhouse is closed up and protected for winter. The next step is the metal siding which I hope to get together before winter but if not it will make it till spring. I am excited beyond words, so proud of the field we have put together. It's been a dream of mine for many years, and I can't wait for our New Years Day event! Just a reminder the door lock has been rekeyed to match the port a potty and lawnmower shed, thanks to Ron Banta for hooking us up! This way, if you are a paid member you will have a key for access to all three. I would recommend keeping the clubhouse locked so we don't have any unwelcome guests. Next meeting we can talk about some interior ideas. Great fall weather, get out there and enjoy some flying!

Next meeting is our appreciation dinner at Famous Dave's. This dinner is for those people in your life that support our habit. The Gallatin Eagles will buy your guest dinner, we start a little earlier than a regular meeting so we have time to visit, great time to catch up and enjoy a great dinner. Hope you can make it.

Check out the indoor fun fly schedule that Alan put together, it helps the winter go by!
Thanks for the work Alan.

See you at the dinner,
Destry

Indoor Flying

Alan Beard has arranged with The Commons, 1794 Baxter Lane (Baxter and Love) for some indoor flying dates for this coming winter. Bring any aircraft designed for indoor flight!

Gallatin Eagles November Events:

13, Tuesday, 6:30 PM. Appreciation Dinner

For more information on club events see our
website: gallatineagles.org/calendar

October 31st, Wednesday, 6 - 9 PM
December 13th, Thursday, 6 - 9 PM
January 17, Thursday, 6 - 9 PM
February 7th, Thursday, 6 - 9 PM
March 14th, Thursday, 6 - 9 PM

Club House / Spectator Shelter

On Sunday, October 21, Several of us met at the field to continue work on the spectator

shelter. Pictured above is part of the crew in front of the entry door. More photos of various stages of work are on the next page.

RC Flying in Butte

I had to spend a week in Butte so I went out to their flying field. It's out Harrison South of town. It's fine gravel, smooth with lots of area to take off in almost any direction and with lots of room around the field. I didn't meet any of the members this trip. Saturday seems to be the day they fly.

I've talked to Famous Dave's about our Nov 13th appreciation dinner and I'll see them again a week before.

Hello everyone!

Mike here! After nearly 2 years living out of the RV traveling around the country, we've found a stopping place! We are living in southern New Hampshire!! My planes made it across the country out of storage, and I'm ready to get back into flying. Big thanks to Ron Banta for crating up an airplane for a 2500 mile uhaul trip! The northeast is great. Short(er) winters, and I found a job at Autodesk (makers of autocad).

The one thing I do miss- our club, and one great flying field. I'm glad I can keep up with you all through the newsletter and Facebook! Wishing you all happy landings. Especially you Larry.

Cheers,
Mike Hutchinson
