

**Club Meeting**

Tuesday, March 10, 7:15 PM at Methodist Church basement.

The church is on the Northwest corner of Willson Ave. and Olive

**Hello all!**

Well, I have finally completed my Club plane. Wow, it was a lot of work but a lot of fun. Last meeting we came up with a date of May 30 for our first fun fly with our club planes. This fun fly will consist of six or so events that can only be completed with your club plane. We will have open flying over lunch, but really concentrating on the club plane events. So this gives you a date to have your plane completed. If for some reason you are still looking to get a kit, let Ron Banta know. He has ordered the other kits and there is still time! I have some decals made for my plane that say "Gallatin Eagles RC Flying Club". I had extras made so I will have them to hand out to put on your plane if you would like.

Don't forget Mall Show April 18. I am working on getting some advertising done for it and

**Indoor Electric Fun Fly Schedule**

Monday January 26, 6:00 - 9:00 PM Journey Church  
 Monday February 16, 6:00 - 9:00 PM Journey Church  
 Monday March 2, 5:15 - 9:45 PM Grace Bible Church Gymnasium

Journey Church is located at 1794 East Baxter Lane, Baxter Ln west of Love Ln.

Grace Bible Church is on 19th just south of Stucky Rd,

Bring any electric aircraft designed for indoor flight

Thanks to Brian Westberg and Alan Beard for making these arrangements.

getting a raffle prize from Central Hobbies of Billings. If any one has time, plan on bringing a plane to show. There are always lots of lookers.

a quick reminder please support your club and pay your club dues. We have almost forty members and last time I checked six members have paid. This year it was voted to raise club dues to \$42 per member \$20 per youth and \$50 per family. Also please don't forget your AMA insurance. This is an agreement we have with MSU for using their ground and way better than paying an expensive lease payment. Thank you for your support, and cooperation! This way we can put some improvements in our field and have more fun events.

Next meeting Larry Nelson will be talking about adhesives, see you at the meeting.

**Winter!**

It's winter time--a time for building, repairing and...checking batteries. I like to cycle flight packs and transmitter batteries this time of year. I usually cycle them three times and write the mAh (milli-Amp hour) rating on a stick-on and put it on the pack. When flying season gets here, I know I have a good pack to use.

If anyone needs to cycle batteries and doesn't have a cycler, let me know. I have an extra one or you can use my set up here at home.

The mAh rating of a battery is the minimum it should do. A 900 mahr pack may be good for 1000 mAh or more but should be good for at least 900. Batteries that don't check out good can be recycled at Owenhouse.

Chuck Curtis

Meanwhile, this Peregrine Falcon is trying the F-14 swing wing idea. . .

**Combat Events**

May 2nd and September 12th,

Registration at 9AM  
 First Sortie at 10AM
